

BASSA-GEL™

Soothing Care for Your New Tattoo
Hydrate. Protect. Support.

BASSA-GEL™ is a gentle, water-washable gel designed to support skin recovery after your tattoo procedure. Its smooth, non-greasy formula helps hydrate and soothe the skin, creating an ideal environment for your tattoo to heal comfortably and look its best.

Why BASSA-GEL™ for **Tattoo** Aftercare?

- ✓ **Hydrating & Soothing Formula:** Helps keep your tattooed skin soft and moisturized without feeling heavy or greasy.
- ✓ **Supports a Clean Skin Barrier:** Formulated to support skin health during the delicate post-tattoo period. Demonstrated effectiveness in reducing bacteria in lab testing
- ✓ **Water-Washable & Non-Greasy:** Easily washes off with water—no sticky residue or build-up.
- ✓ **Trusted by Professionals:** Used by tattoo artists and skin care professionals who value gentle, reliable aftercare.

Important Reminders:

- Always follow the specific aftercare instructions from your tattoo artist.
- Do not apply BASSA-GEL™ to open wounds or heavily scabbed areas unless directed.
- If you experience redness, irritation, or unusual reactions, stop use and consult a healthcare professional.

BASSA-GEL™ is not a medicated product and is not intended to treat or prevent infection.

Always keep your tattoo clean and monitor it closely during healing
